TIME IN MIDDLE

POLICE AUTO CUTS

to Station In Ten Minutes After Arrest

MANY USES OF VEHICLE

The hot waves of summer are usualy waves of crime and consequently the period from July 3 to August 7 has been a busy one for the auto-patrol The report which has just been prepared shows that in most cases ter minutes were taken to answer a call whereas it formerly took twice that time. There are four officers assigned time. There are four officers assigned to care for and drive the machine. Officer Charles A. Wheeler is on duty between 8 a. m. and 6 p. m., Officer John E. McGirr between 6 p. m. and 3 a. m., and Officer P. J. Lynch from that time until Officer Wheeler returns. Officer George H. North has been acting as the substitute when the drivers are absent for any cause.

turns. Officer George H. North has been acting as the substitute when the drivers are absent for any cause.

There were 249 trips of which 37 were between the hours of 6 p. m. and 3 a. m. Officer Lynch drove the car in 68 trips and Officer Wheeler 61 times. That the substitute is kept busy is shown by the fact that he was called out 23 times. All calls are not for the purpose fo bringing in prisoners. Thirty-three trips were made to the jail when convicted prisoners were taken from the city court. Four journeys were taken to Seaside Park to bring officers to and from the band concerts and 6 trips were made to Washington Park for a like purpose. The Bridgeport hospital was visited once to bring William Stanton to police headquarters, and three prisoners who had been confined to St. Vincent's hospital by injuries received in assault affrays were brought from that institution to appear in the city court. The Locomobile factory was visited three times for minor repairs and the use of the car was made by the detective bureau on four occasions to recover stolen property. Twice the patrol was telephoned for, but on arrival the prey had flown. The busiest day was July 24 when 15 calls were answered, while three days, July 30 August 1 and 3, show but four calls each. About 450 miles were covered. The fastest work of the machine came on Thursday when three calls were answered within 20 minutes, one to Seaside park, another to Laurel avenue, and a third to the Lakeview home.

FORMER ACTRESS WHO SHOT LAWYER IN WALDORF HOTEL

Mrs. Mary Scott Castle, who shot William Craig, a lawyer, in the Waldorf-Astoria hotel, New York city, is a native of San Francisco and was formerly prominent in society there. She and Craig, who also is a San Franciscan, have known each other from childhood and were good friends until a mysterious quarrel arose, which resulted in the shooting. A fountain pen saved Craig's life by deflecting the bullet. Mrs. Castle went on the stage a few years ago after her husband, who is now in Alaska, lost his fortune. Her family is an excellent one, her brother, Captain Henry H. Scott, being an officer in the United States army. In British Columbia platinum is found in many alluvial gold workings as a by-product, but its separation is attended by too many difficulties to be practical except in a few instances. The six-miles Gunnison irrigation tunnel in Colorado, when completed, will be the greatest artificial under ground waterway in the world, as well as the greatest piece of concrete work.

HEINZE STOCKS MORGAN MADIGAN - DIES SUDDENLY

Average Prisoner Brought Had Suffered Long Follow-Persch Arraigned Today on Would Summon Private Higing Remarkable Operation on the Spleen.

Scores of people were shocked, yes-terday afternoon, to hear that Morgan P. Madigan had died suddenly at the home of his brother, Edward J. Madi-gan, 878 Main street. In the morning he was at his place of business at the lower bridge where he conducted a lunch wagon. He was in good spirits and talked pleasantly with his patrons as was his usual custom. About 2 o'clock yesterday afternoon he went to the home of his brother where he boarded and complained of a peculiar sensation as he ascended the stairs. To Mrs. Edward Madigan he said that To Mrs. Edward Madigan he said that his arms felt numb. He asked for alcohol to rub them with. She hurried to a drug store. Upon returning she found him on the floor, writhing in pain. She sent for Dr. F. J. Adams, who tried to make the patient comfortable. In an hour he died. Two years ago the deceased underwent an operation upon his spleen.

Few of his friends were aware of his sufferings for more than two years. While he has stood behind the counter of his places of business and joked and chatted he has been suffering from a deep wound in his side placed there

and chatted he has been suffering from a deep wound in his side placed there by doctors to hold a drain in order that he might live. Frequently this drain would become clogged and he would suffer much agony until surgical relief was afforded.

He had also undergone an operation for appendicitis which was followed later by an operation for stomach trouble. He was at the point of death several times during the latter illness and Dr. John F. Erdman, the celebrated specialist, was called in. He found the trouble to be with the spleen and performed one of the most remarkable operations known to the surgical world and placed the drain in the young man's side. The frequent attacks from which Mr. Madigan sufered even after the drain was placed ered even after the drain was placed were similar to those which come with acute indigestion, but he bore his af-fliction with fortitude and hoped eventually to recover.

He was 34 years old and his greatest assest was his multitude of

est assect was his multitude of friends.

He is survived by two brothers, Edward J. Madigan and John E. Madigan, both of this city, He was born in Port Chester, N. Y.

Morgan and Edward Madigan began very young as clog and buck and wins dancers. There were none better in the business, but they tired of it. They settled in this city 16 years ago. They were partners as small boys and the loyalty of one to the other existed through their manhood. Through the long illness of Morgan his brother's devotion to him was truly Spartan. In their business enterprises the capital of one was always at the call of the other. Before opening his lunch wagon Mr. Madigan conducted the restaurant in Water street, near Fairfield avenue which he sold to Cornwell, the

avenue which he sold to Cornwell, the New Haven lunch man.

Edward J. Madigan is at present the manager at Steeplechase Island.

There will be a special meeting of Bridgeport lodge of Elks this evening to take action upon the death of Mr. Madigun who was a member of the lodge, and to arrange for his funeral which will be held from the home of his brother to-morrow morning where the Elks' service will be conducted. Services will be held later at the Church of the Sacred Heart. Interment will be in St. Michael's cemetery.

Rep. Bishop Attacked By Rep. Dormitzer

Is Not Permitted to Reply— Business in House

(Special from United Press.)

Hartford, Aug. 11.—Representative Dormitzer of Woodbury created something of a sensation in the House this morning when he described Bishop's motion to indefinitely postpone public utilities legislation yesterday as open to criticism, saying that the lobby knew of it some time before it was made and asked "Where did you get it?" Bishop started to reply but both were declared out of order.

Chandler of Rocky Hill prepared for a possible conference committee on public utilities by getting through a resolution causing this committee, it elected, to be elected by ballot on nominations from the floor.

Convidence in the tree were phind Person, me Heinze. To throw per stock on the drive down the per s (Special from United Press.)

elected, to be elected by ballot on nominations from the floor.

Considerable time was again taken over the telephone night rate bill and the House finally reconsidered former resolution and voted to again recall it Messrs. Johnson of Newtown and Dunn of Willimantic being made the committee of recall. The proposed amendment to the general dentistry law which would make it possible for all dentists who were practicing pravious to December, 1907, to continue practice whether they had passed the examination or not, occupied a lot of the time of the House, having been favorably reported by the committee on public of the House, having been favorably reported by the committee on public health and safety. Representative Whiton of New London offered an amendment setting the date back to 1902 but the amendment of Judge Parker of Hartford striking out all this section of the bill was finally adopted and then the bill passed.

Among the matters passed by the House today were the following: The establishment of general conditions concerning involvments by savings banks; the personal tax of £2 a year; the restriction of manufacture of oil and guana and the exclusion of garbage reduction from the towns of Waterford, East Lyme, Old Lyme and terford, East Lyme, Old Lyme and Stonington; appropriations for the Bank Commissioners, agricultural ex-periment station and the Highway Commissioners' running expenses; and authority to the New York, New Ha-ven & Hartford Railroad to construct a new bridge across the Thames river.

Haven; Thomas W. Rooney, Bridgeport; M. E. Nellis, Bridgeport.

FIGURE IN CASE

The Charge of Grand Larceny

SOME INSIDE FACTS

(Special from United Press.)

New York, Aug. 11.-When Donald L. Persch, holding \$50,000 bonds, charged with grand larceny for the sale of \$110,000 worth of the Heinze Copper stocks which had been posted to secure a loan of \$50,000, is arraigned today on habeas corpus proceedings he has instituted, the district attorney's office hopes to reveal some more of the inside facts in the stock's his tory. Efforts are to be made to get Persch to reveal the names of the men who backed him in the transac-tion for the district attorney is sure the whole deal was inspired by some of the enemies of F. Augustus Heinze and Persch has practically admitted as much by saying it means a \$10,000 a year job to him to keep his mouth

that has Wall street guessing: M. M. Joyce of the brokerage firm of M. M. Joyce of the brokerage firm of that name, wanted to borrow \$50,000 quietly for a client who is creditably believed to be F. Augustus Heinze, the copper king. As collateral for this loan Joyce was willing to put up 15,600 shares of Ohio copper and 4,100 shares of Davis-Daly, both Heinze's companies. A. Clarke, a loan broker, heard that Joyce wanted to borrow the money and he visited Joyce with the statement that his client, the Windsor Trust Company, would lend him the money on the Heinze collateral, Joyce is buying the stock and he didn't want to have it known on the

torney that it only acted as agent for Charles Katz, president of the Eastern Brewing Company who was the real lender.

It develops, however, that Donald S. Persch, a curb broker, was the lender. Persch heard that Joyce wanted to borrow the money. He hadn't the \$50,000 to lend so he went to John T. Sherwood, another curb broker, to borrow it. Sherwood hadn't \$50,000 but he says he borrowed it without security from L. J. Field, a broker for whom he formerly worked. Sherwood says at Persch's orders, he took this \$50,000 to the Windsor Trust Company gave it to the officials of the trust company and received for it stock which Joyce put up as collateral. He did not see Joyce at all, but did all, his business with the Windsor Company. Joyce says he thought he, too was acting only with the Windsor Company. As soon as the stock was turned over to Sherwood he notified Persch, who he says told him he owned the stock and ordered him to sell it. Sherwood sold the stock in the market for \$95,000 for the pase of the money. Then he deducted about \$10,000 of the balance for his work and gave Persch him by Persch which led him to be-

Trust Company for \$50,000. It is said that there were powerful influences behind Persch, men who are fighting Heinze. To throw 20,000 shares of copper stock on the market would sure drive down the price and hit Heinze. The conduct of the trust company, too is puzzling.

The company claims it was acting only as agent for Katz who says he doesn't know anything about the affair at all. What the district attorney wants to know is why, if the company thought it was acting for Katz, it turned the stock over to Sherwood at Persch's orders, and took \$1,000 for acting as agent.

gins from Honolulu to Testify in Sutton Case

UNDERTAKER'S TESTIMONY

(Special from United Press.) Annapolis, Aug. 11.-Two directly opposite versions as to the character of disposition of the dead Lieutenant James N. Sutton were told to the naval board today. Dr. Gilbert E. Colewho with Mrs. Mary Stewart, was the companion of Sutton Before he began the fatal auto ride with his brother officers, declared him to be lovable, cheery of disposition and that he was especially happy during the several hours they sat in the assembly room on the night of the tragedy. A few minutes later Lieutenant Allen Sumner, summoned from Norfolk, took the stand and declared that Sutton was a man to be avoided, was overbearing and would not tell the truth. Sumner, it developed, was brought into the case because of the finding among Sutton's effects, of a visiting card on the back of which was written an apologetic message by him. The message ran: "Sutton I am a damn fool. Call the gun business off. (Signed) Sumner." he began the fatal auto ride with his damn fool. Call the gun business off. (Signed) Sumner."

In explanation Sumner declared that a year before Sutton's death the latter had challenged him to a duel. The quarrel, he said, occurred while he and Sutton were drinking in a Washington hotel. At that time neither of the men cared to apologize first and they evolved the plan of both writing an apology at the same moment. Unfortunately he said, he lost Sutton's apology and Sutton must have kept his.

Trust Company, would lend him the money on the Heinze collateral.

Joyce is buying the stock and he didn't want to have it known on the market and thus beat down the price. Se he agreed to borrow, provided the Windsor Trust Company would agree in to put the stock in the vaults and keep it there. The next day, in filling an order for another client, Joyce went into the market to buy similar stocks, and was dismayed to find he was puying his own stock, which he thought was held as collateral. He started an investigation through the district attorney's office.

The Windsor Trust Company now declared, according to the district attorney that it only acted as agent for Charles Katz, president of the Eastern Brewing Company who was the real lender.

It develops, however, that Donald S. Persch, a curb broker, was the lender. Persch heard that Joyce wanted the says he borrowed it without security from It. J. Field, a broker for whom he formerly worked. Sherwood agay at Persch's orders, he took this, to the 550,000 to the Windsor Trust Company gave it to the officials of the trust company and received for it stock which Joyce put up as collateral. He stored for another curb broker, to owner to the cheek but on account of the condition of the scalp could not tell what the stock was turned over than 1,300 typewritten pages as company. Joyce says he thought he, too was acting only with the Windsor Company.

As soon as the stock was turned over the cheek but on account of the condition of the scalp could not tell what they were made with.

Several witnesses were called to verify the stenographic reports of formany and received for it stock which Joyce put up as collateral. He did not see Joyce at all, but did all his business with the Windsor Company.

As soon as the stock was turned over the cheek but on account of the condition of the scalp could not tell what the purpose of which he was collateral. He did not see Joyce
